

“How to Make a Bunch of Money With your Own Trucking Website!”

No Experience Necessary!

Two years ago I didn't know anything about websites and the internet. I could check my e-mail and surf the internet and that was about it. **Times have changed! I have had countless phone calls from fellow truck drivers, friends, and family wanting information about building their own websites after hearing of my success.**

So I thought I would explain how easy it is to make and profit from a website and attach it as a bonus eBook and email it to my friends.

You purchased the eBook **“How to Make \$65-\$95,000 Driving a Truck...and be Home Every day!”** and are pursuing a trucking job like mine. You either just getting into the trucking industry or you are already a truck driver.

Regardless of your situation I am sure you are looking to make more money. That is why I put together this little bonus for you. It doesn't matter how much money you make, more money is always nice.

I put together the Richtruckdriver.com website in an effort to show people how to get a job like mine. I now have several trucking websites. I have learned a lot about websites and the internet along the way. The most important thing that I learned is you can make a lot of money with trucking websites or any website as far as that goes. **A lot of money!**

You can make as much money as driving a truck that's for sure. The sky is the limit when it comes to website profits. I still drive because I like it and I have a great trucking job with excellent benefits, but I do not have to drive anymore if I don't want to. **The comfort I get out of knowing that I don't have to drive is priceless!** You can achieve this also and it is not difficult.

If you were able to find my richtruckdriver website and order my eBook you

have the skills to make money with your own trucking website. The great thing about a website is, once you put one up on the internet, it is on auto pilot. **The money comes in night and day.**

Let me show you how I did it and you can do the same thing also. There are billions of dollars being spent on the internet so there is always room for more website. **Do you want a piece of the action?**

How do you make money with a website?

- Commissions
- Advertising
- Products
- Referrals

Advertising

The easiest way to make money with a website is **advertising!** Have you seen the Google ads at the top, bottom or side of my WebPages? I get paid every time someone goes to my website and clicks these little Google ads on these pages. Let me show you an example of earnings from my website for one day. **I am sure this will get your attention!**

January 15, 2008

Save as Report Template:

[CSV](#)

Date	Page impressions	Clicks	Page CTR	Page eCPM [?]	Earnings
Tuesday, January 15, 2008	6,250	829	13.26%	\$44.35	\$277.17
Totals	6,250	829			\$277.17
Averages	6,250	829	13.26%	\$44.35	\$277.17

This is an example of one day's Google earnings from my richtruckdriver website! I had about **2,500 visitors** who looked a total of **6,250 pages** on the

site. **829 Google ads** were clicked on for a total of **\$277.17!** I am sure you are aware that I sell my eBook also on this site and I sell many of them.

I made almost as much in **Google profits** from this website as I did driving a truck in one day **not counting eBook sales!** You don't have to write an eBook to make money with your own site. You just need a topic or theme, Google ads, and traffic to your website. **I'll show you how to do it all for free!**

Getting Started

All you need is a computer. You can do this while on a break at a truck stop or when you get home on the weekend. Maybe your spouse can do this while you are driving.

There are hundreds of thousands of trucking searches performed Every day!

Pick a Topic

1. The first thing you need is pick a **trucking related subject** that you will talk about on your website. Then think of a domain name that is related to this subject. Like truckingsecrets.com, .net etc. Let's say your site will be about truck driving stories. You may want to try to buy truckdrivingstories.com. You can buy domain names for around 10 dollars or less.
2. Note * Keep all receipts so you can write off any items on your taxes! I buy all my domains at [Godaddy](#) and then point them to [Hostgator](#) for cheaper hosting.
3. You will need to get web hosting. A Hosting server is where your website files are stored so they can be accessed by people searching on the

internet. The cheapest web hosting can be found at [Hostgator](#). You can also buy a domain name there if you want but they cost a couple bucks more than at godaddy. [Godaddy](#) also has sales frequently so I buy my domains there and just point them to [Hostgator](#).

4. The great thing about Hostgator is it is a **month to month service with no contract** of any kind. For fewer than 10 bucks a month you can host as many websites as you want for no additional charge. Hostgator has website builders and blog templates that are easy to use and better also. **They have 24 hour customer support and can help you with any problems.**

I see deals online that say if I buy a domain name they will host my site for free? **Warning- Godaddy does this but do not do it!**

The problem with this is **internet directories will not list websites from free hosting communities!** I found this out the hard way! You will not be able to drive traffic to your website without being listed in internet directories!

Without traffic to your site no one will click your Google ads! I will show you multiple ways to get **free traffic** to your website but you must have a **hosted site! The second problem with free hosting is forced advertising!!!!**

How do you think these free hosting plans pay for the free hosting? They put ads on your website. **This is the same money that you want to earn from your site in the first place.** **The whole point of building a website is to earn money not give it away!**

In the future when you are getting traffic to your site you may want to sell banner advertising. There is a lot of money in this. There is not one company out there who will pay to have a banner on a free hosted website with some

cheesy website template from a free hosted community!

You must have traffic to sell banner advertising! There is a lot of money in **selling banner advertising** on your website! Get a cheap hosting plan with no contact and go month to month.

The Best and Cheapest Hosting Plans

- [Unlimited Domain Hosting Only \\$9.95 a Month](#)
- [Host Dime](#)
- [Host Unlimited Domains On 1 Account](#)
- [Easy Web Hosting \\$6.95](#)
- [Go Daddy](#)

The bottom line is for 1 domain name and 1 month of hosting you have spent less than 20 bucks! I own so many domain names and they all pay for themselves hundreds of times over with Google ads alone! **I will show you how to make money just buying domain names!**

Google

As soon as you get the theme of your site put together, put some Google ads on your site right away. Go to [Google adsense](#) and sign up. **Its free!** They have a tutorial and will walk you through this easy process!

You buy a domain name and hosting for a couple bucks a month. Use a website template from [Hostgator](#) to build your site and place Google ads on your pages. You are almost done.

Get Free Traffic to your Website

You have purchased a domain name and web hosting. Now let's get some traffic to your site so you can start making some Google profits off those ads!

The #1 way to get free traffic – and it's free!

Ezine articles

Ezines are short little articles you write and post to ezine websites. They contain links back to your website. These links help your website rankings with the search engines. These articles also get indexed by search engines.

Great things about ezines!

- They are free to write and use.
- Promote your website and link back to your website from the article.
- These ezine articles can be picked up by anyone and put on their website as long as the link to your website is intact.
- You can use other people's ezine articles to provide content for your website.

Here is an example from one of my websites where I use other people's articles for content. Cdlpracticetest.net. Look at all the Google ads on this website!

Here are the most popular places to post or get your articles for free! You will be able to find content here for just about any website topic.

1. <http://www.Ezinearticles.com>
2. <http://www.Ideamarketers.com>

3. <http://www.Goarticles.com>
4. <http://www.Articlealley.com>

Here is an [example of an ezine](#) . Notice the links to my web site from this article.

Free Internet directories

Another way to boost you website rankings is to list your website in internet directories. Internet directories catalogue websites in different categories with a link back to your website.

For a list of popular free internet directories go to [Directory Max](#). For a couple bucks the will submit them for you saving you a bunch of time! I use this service because im to busy doing other things. For a Complete list of free and paid directories go to the [Directory Critic](#). You can submit them manually for free!

Blogging

[Blogger – It's Free](#)

Create a blog or multiple blogs and put your articles there and **point links to your website**. You can also put your adsense ads on your blog. When you create blogs and link them to your website your website will get higher rankings.

Higher rankings mean more traffic. More traffic means more clicks on Google ads. More Money!

Contact Trucking Websites and Exchange Links

Contact other **trucking sites** and **exchange links!** You send them traffic and they send you traffic. Exchanging links with a popular trucking site will help your rankings and bring you more traffic!

I own several trucking websites and when you are ready to exchange links from one of my sites to yours E-mail me at tjdude44@sbcglobal.net. We can both benefit from each other's traffic!

Check out my links page at Truckingjobarticles.com/links.. You will see I have exchanged links with a guy who made a trucking t-shirt site called [Trucker Junk](#). He has increased his sales by exchanging links with me.

More Free ways to earn on your website

Adsense Websites

You can make a very good living just creating **adsense websites**. Too many people are looking for that one big score that is going to make them a bunch of money.

Can you imagine making \$1,000 a day? If you go looking for a job that pays \$1,000 a day you will be looking when you are **old and gray!** As an aggressive entrepreneur I can tell you the easy way you do it. Create 10 projects that pay \$100 a day. Create 20 things that pay you \$50 a day. This approach is much more realistic and obtainable than one project that pays you \$1,000 a day! **If you go this route you will find your \$1,000 a day before you know it.**

Making adsense sites for profit follows this principle but on a smaller level.

A domain costs 8 -10 bucks. A simple adsense site with free articles and Google ads can earn you 50 cents to 10 dollars a day depending on variables such as the topic, keywords, and advertisers spending money on your topic in Google advertising.

At 50 cents a day you would turn a 170 dollar profit on your investment each year. Are you getting the picture?? 100 adsense sites at a dollar a day and you have \$100 a day= \$36,500 a year! You can multiply this number all you want! Some domain owners have thousands of adsense websites!

Here are a few examples of my adsense sites that I earn 1 – 5 dollars a day in Google ads with!

- Cdlpracticetest.net
- Howtocdl.com
- Truckingemployment.net
- Paidcdltraining.net – *If you want to crank out sites like this little money machine check out the software at the end of this eBook!*

Here is a typical week for a couple of these sites.

cdlpracticetest.net	322	83	25.78%	\$48.99	\$15.78
howtocdl.com	69	4	5.80%	\$33.31	\$2.30

As you can see I use them to promote my eBook as well as products from amazon.com. So the profits are even higher!

If you build an adsense website each day for one year you would make more than you could ever imagine driving a truck. 365 sites making 50 cents to 5 dollars a day. Hmmm. **What if you made 2 adsense sites a day for a year?**

Amazon.com

List products for sale on your site from amazon.com. They will pay you between 4% and 10% for sales. It's **Free!** Check out my [Truck Driver supply store](#). You can list individual products for sale on you website from Amazon also and make excellent profits! Look at [cdlpracticetest.net](#) at the bottom of the page.

Café press

[Café press](#) is **free** also! Create and sell t-shirts and mark up the price as high as you want! Put these t-shirts on you website and blog. Check out my friend's site at [Truckerjunk.com](#) or my [T-shirt store](#).

After Your Revenue Has Peaked!

The key to making money from your site is taking your initial profits and reinvesting the money in to your site so it will become more profitable! You put up a basic site and earn some money from your Google ads.

Then take those profits and parlay them into more money. Below are a few products that will help you do this quickly!

You do not need these products to get started with your website! Get a domain name and hosting. Then mess around with a website template and Google ads. When you are ready to make more money go to the next level.

EBooks

I have probably **bought over 50 eBooks** on marketing, writing, internet profits, Google. Etc. I will save you a bunch of time, effort, and money by recommending the **three eBooks** that made rich truck driver.com a **Six Figure Profit Machine** for me. Money in my account while I sleep, drive, or while I am on vacation. 24 hours a day, 7 days a week, 365 days a year! Anyone can do what I did and am doing!

Blogging to the Bank!

[Click Here For More Information](#)

Take your website profits to the next level! I stand behind this product **100%**. I made a lot of financial progress after reading these blogging tricks! I would not have the traffic or the success I have today had I not read this eBook!

The 7day eBook

“How to Make \$65-\$95,000 Driving a Truck and be Home everyday”
Would not even exist if it wasn't for this eBook! If you are looking to take your profits to the 6 figure level this is a must have.

If you have an idea for an eBook I implore you to get this product and write your eBook. You don't want to wake up someday and wonder what would have been different in your life had you done it. **Even worse, see someone else years later profiting from your idea!**

[Click Here For More Information](#)

I'm just about done writing **“Team Driving Millionaires”**. Send me an email if you want to be notified when it is for sale! Tjdude44@sbcglobal.net

Adsense Websites

When I was talking about making adsense websites I put up an example of paidcdltraining.net. This is the software you use to create adsense sites like that. It cost about 100 dollars but you will have to do the math on this one. You will make 2-3 times per adsense site than anything else you can put together.

It has 5 different advertising streams you can use and it works. **If you want to sit at home and make a living making adsense sites this is a must have.** Go to the site and watch his videos, it's easy to use. I would have paid a \$1,000 for this program!! Again you will need hosting at [Hostgator](#) to run a script of this nature. Look at the hosting requirements at the bottom of his sales page!

The bottom line is you need the program, domain names, and cheap hosting to make profits. You can write off these investments on your taxes if you itemize. Check with your tax preparer for information about tax write off's.

[Click Here for More Information](#)

Sell your domains

The first thing I do when I buy a domain name is list it for sale! I just paid 8-10 bucks for a domain and I list it for a minimum of \$100 depending on the domain. I just sold 2 last week! The more traffic you have the more they are worth! My Richtruckdriver.com is listed for \$200,000 dollars.

If I already built an adsense website for a domain I list it for \$500 to \$1,000. You never know who might buy it! [Godaddy](#) does domain appraisals and you can list domains for sale there also. Good Luck!

If you would like updates and more info about making money with websites let me know tjdude44@sbcglobal.net. I have a lot more I would like to share with you!

A Final Thought

There are two types of people in this world the way I see it. There are people that wait for things to happen and there are people who make things happen. You can go into any city in this country and find the neighborhoods of the people who are waiting for things to happen in their lives. It is never hard to find the neighborhoods of the people who make things happen in their lives. What type of person are you?
